3. Conclusion..... 10

1.Introduction

We are developing a range of Cloud-based Services for professional Services Automation.

Here is the Home Page to help you understand our offering and the current situation:-

- <http://www.databaseanswers.org/psa/index.htm>

and here is what it looks like

<p> <u>Expenses</u></p>  <p>Our Expenses Service is Exceptional !!! Two lines of text will be provided here to be superimposed on the image above.</p>	<p> <u>Invoices</u></p>  <p>Our Invoices Service is Incredible !!! Two lines of text will be provided here to be superimposed on the image above.</p>
<p> <u>Payments</u></p>  <p>Our Payments Service is particularly Reliable !!! Two lines of text will be provided here to be superimposed on the image above.</p>	<p> <u>Timesheets</u></p>  <p>Our Timesheets Service is Tremendous !!! Two lines of text will be provided here to be superimposed on the image above.</p>
<p><i>On-Site Functionality</i></p> <p>Onsite Functionality</p>  <p>on-site tools make certain the guest-arrival process runs smoothly. Any computer or tablet with internet access can serve as a self-service portal for walk-in registrations and check-ins for your pre-registered attendees. Organisers can also take live credit card payments, distribute confirmations and invoices, amend reports and access real-time reports all while on-site.</p>	<p><i>Registrations</i></p> <p>Mobile Friendly Registrations</p>  <p>Our innovative technology allows your attendees the ability to quickly & securely register for your events directly from their smartphones and tablets.</p> <p>Our Expenses Service is Exceptional !!!</p>
